

Parka Care

- Routine Care:** Lay out or hang the parka to dry after each use.
- Spot Cleaning:** Spot clean with a wet cloth to remove any dirt, sunscreen, or food.
- Washing:** Regular washing is not needed. When needed, please hand wash in a sink or machine wash on the gentle cycle in cool water with mild soap / detergent. Do not use bleach or fabric softener. Lay flat or hang to dry.

* Please wash per the instructions above prior to returning your loaned parka at the end of the season. Thank you!
